Phusion's Summer Intensive 2010 program promises to be a truly unique and challenging experience. It is designed for dedicated students who share our passion for dance and who want to sincerely increase their technical understanding of the art form. This program has been created to give students the very special opportunity to experience coursework in intensive ballet, modern, and jazz along with training in and exposure to many other genres of dance.

Our mission is to develop well-rounded students, so Intensive 20-10 will integrate the study of dance with a comprehensive curriculum that includes an introduction to courses in the performing arts and a variety of specialty workshops. Bringing excitement and purpose to each day, students will strengthen and hone in their technical skills, as well as develop their creative potential.

On the final Saturday of Intensive 20-10, students will present a range of work produced from their experiences; a fantastic collaboration from Phusion's faculty and students. So, come explore an intensive which not only aims to improve the student's dance skills, but supports them in growing technically, artistically, and personally.

Summer Intensive 2010

3-week Young Artist Intensive June 8-June 26

For students 12 - 18 years of age
(2 years of dance experience required)

Dance
with purpose in your heart

The mission of Phusion’s Summer Intensive 20-10 is to develop well-rounded dancers through exposure to a variety of disciplines. Our Young Artist Intensive offers a professionally staffed, comprehensive dance curriculum that includes daily classical and contemporary ballet

technique classes, Pointe or male technique, Jazz, Tap and a variety of other dance forms.

Summer Intensive 20-10 brings Phusion’s own talented faculty together with some of the most nationally-known guest choreographers. Under their guidance students will be immersed in a Core course load requiring students to focus strongly on the technical aspects of dance.

Additionally, dancers will engage in 2 Connection classes each day devoted to choreography, costume design or set design. This will be a unique opportunity to learn the behind-the-scenes skills necessary to put on a full-scale production. Provided with a small budget for purchasing materials, students will be given the chance to choreograph their own dance routine, design/sew their own costumes, and complete a model for their set/background. At the end of each day, students can elect to attend Specialty Workshops designed to enhance their performing arts education, as well as expose them to new/old interests.

Phusion’s Summer Intensive 20-10 is an opportunity for emerging artists to grow technically and artistically, culminating in a repertory performance.

So..., get ready for an experience that will stimulate your imagination and inspire your creativity!

Core Classes	Connections	Specialty Workshops +

2-week Junior Intensive June 28-July 10

For students 7—12 years of age
(1 year of dance experience required)

Dance
to celebrate life

Phusion’s Junior Intensive is designed for the young student who is committed to dance and is willing to go “the extra mile” to learn all they can, technically. Under the guidance of our Phusion Faculty and Guest choreographers, dancers will be enjoy an exciting

and challenging two weeks of special courses that will engage, stimulate, and improve their skills.

Additionally, students will participate in a unique mixture of fun and creative workshops. At the conclusion of the intensive program, dancers will share their talents in a performance. Parents will be awed at their student’s growth!
